

# Office Memorandum • UNITED STATES GOVERNMENT

TO : OC-E

DATE: DEC 17 1954

FROM : OC-S

CSD 4-873

SUBJECT: Facsimile Radiation

REFERENCE: Memorandum on Facsimile Security  dated 6 Oct. 1954

50X1

1. This division has concern for the radiation factor of electrical cipher equipment considered for use by this Agency. For this reason, we are interested in the results of NSA's study on the extent of radiation in facsimile terminal equipment and the extent to which radiation in this equipment could compromise the cryptographic aids associated with it. We would appreciate being kept informed on the outcome of NSA's study.

2. We will cooperate to the fullest extent possible with any study of radiation on this type of equipment you may undertake.
